

HAITI UPDATE: December 22, 2016

These pictures tell a story. The first picture shows all that is left of the Citron church building. The members already cleared away all the debris. They meet there for every service. Next one of the trucks we hired to deliver food, water and clothes. Number three shows members picking up food and water for their families. Fourth and fifth pictures show some of the packages of rice while number 6 shows a woman carrying her gift of love. The next two pictures shows another one of the trucks we hired to bring relief. Local preachers sign for food and money received. Please make sure to click on all the pictures. More pictures will follow.
