

HAITI UPDATE

August 19, 2021

Folks, I just forwarded to you Erique's report to me. Please do not respond to Erique's report. His report shows the damage that this earthquake caused. There are many people that are sleeping under trees, totally exposed to the elements.

Hurricane Grace made things even worse with torrential rains and mudslides.

I am sending along the picture of the Petit trou de Nippes church building. There is not MUCH damage and a few hundred dollars will suffice to restore that building. Others did not fare THAT well, being totally destroyed. I am so happy to report to you (again), that all the buildings (7) that we rebuilt after hurricane Matthew were left totally unscathed and now serve as refuges for the homeless.

I am sad to report that 42 of our brothers and sisters lost their lives. More victims will be found as heavy machines dig their way through village after village, finding injured and dead victims.

Please, remember Haiti in your prayers, especially our brethren. Please call the WEST BROWARD CHURCH for further instructions, if needed at 954-475-7172.

We have no less than 35 churches in the three departments (counties) that incurred most of the damage. Thank you for helping.

Joe Worndle
